CABLE LOCK

HOW TO SET YOUR COMBINATION LOCK

1. Leave dials at the opening combination and close the lock.
2. Push the button (1) in the direction of the arrow-hold it until completing the next step.
3. Turn the dials (2) to your desired personal combination.
4. Release the button. Your new lock will now open to your personal combination.

Record your combination in a safe and accessible place for future reference.
